EDUCATION

Electronics & Telecommunication AISSMS IOIT,Pune	CGPA-7.72 Aug'24-Present
XII (HSC) S.J.M.S.M's Arts & Science Junior College,Nandurbar	82.33% Feb 2024
X(CBSE) Jawahar Navodaya Vidyalaya,Nandurbar	80.80% March 2022

SKILL

- Programming Language - Java, Python, HTML/CSS .
 - Data Structures & Algorithm(Java), Web Development, Object-Oriented Programming System
-

PROJECTS

Health Sphere - Digital Health Records

- Created a secure web platform for recording and managing patient health data in a sprinkle of electronic medical records, appointment scheduling, and analytics dashboards to ease healthcare workflows.
- Tech Stack - Python (Django), React.js, HTML/CSS, JavaScript, and PostgreSQL

AI-Based Hand Sign Detection System

- Developed a computer vision application using a device camera to capture hand signs and display the word in real time. The system was specially designed to assist speech-impaired individuals in communicating effectively through gestures, showcasing practical AI integration for accessibility.
 - Tech Stack - Python, OpenCV, TensorFlow, Convolutional Neural Networks (CNN), Computer Vision
-

EXPERIENCE

Team Leader - College Hackathon (Health Recorder Website)

- Led a team of 4 peers in building a Health Recorder website to track and visualize health data.
 - Coordinated development and delivered a strong presentation that earned Second Runner-Up at the college hackathon.
 - Acquired practical skills in the areas of web development, leadership, and teamwork within tight deadlines.
 - Implemented responsive design and secure data storage features, increasing its usability and accessibility.
-

POSITION OF RESPONSIBILITY

- Head, Study Circle Club - Led overseas student exchange activities and coordinated academic programs. Organized study sessions and guest lectures by industry experts to enhance student learning
-
